

# SafeBreach

Red - Teaming

CYBER ATTACK B A S SOLUTION

FOR ICS AND CRITICAL INFRASTRUCTURE

"TAKE ADVANTAGE OF ATTACKS"  
To Improve Your Defense

SaaS,  
On-Prem  
Automated  
Red Teaming  
Tests

# SafeBreach

Validate and Optimize  
Your Security Controls

## RISK MITIGATION EFFICIENCY

Ransom Attack	Abuse of Credentials	Attack on the Cloud	Data Theft
---------------	----------------------	---------------------	------------

## IT & OT Cyber Security Level

“Test” - “Report” - “Improve” “Test Again”

**Leverage  
the Attack  
to Improve  
Your  
Defenses**

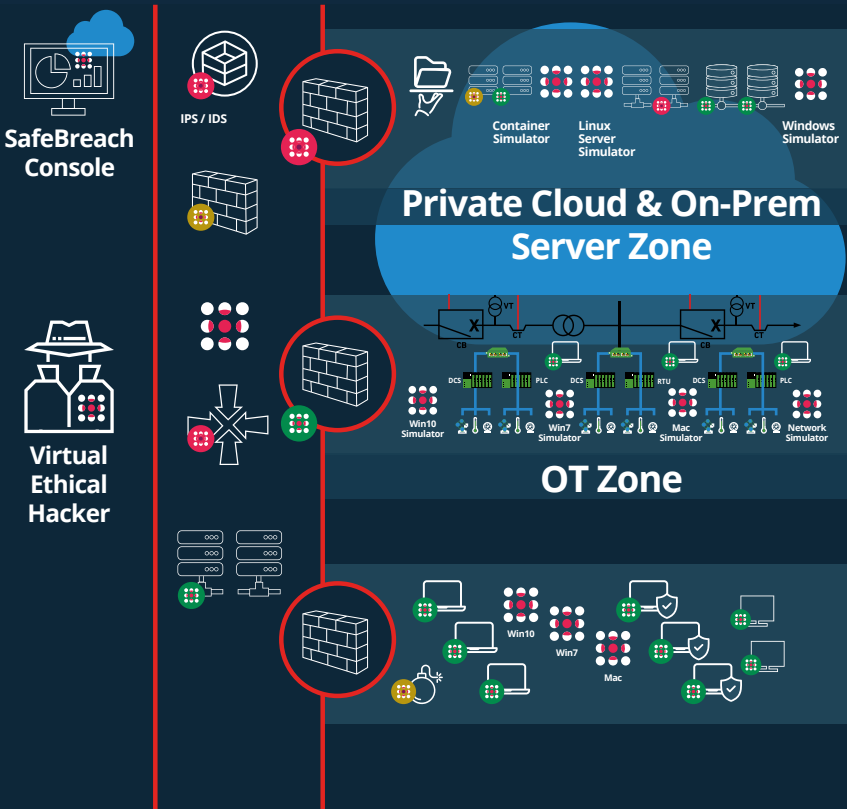

**i Risk Remediation Never Stops, it is always ongoing.**  
Detect and Mitigate Critical Gaps Before Actual Attack,  
Automate and Prioritize Remediation.

## DRILL ENVIRONMENT FROM DEFENSE TO OFFENSE

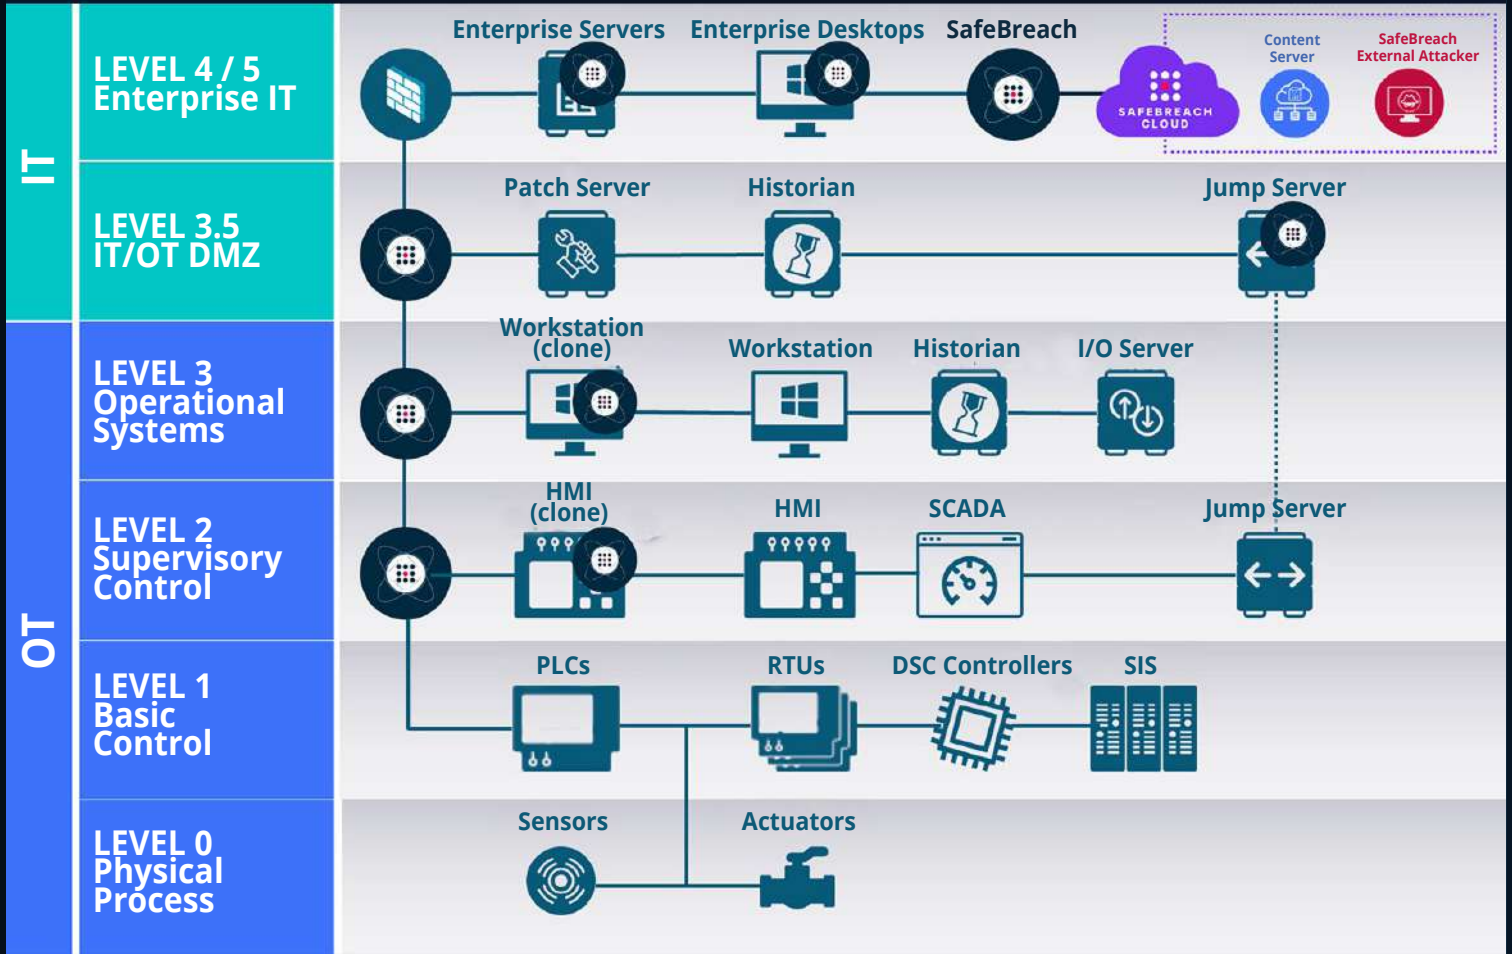

Constant "**wargames**" to identify your vulnerabilities in your cloud and on-premises network systems.

Use the cyber attack simulation drill platform to proactively detect attacks, tighten **your security posture by constantly measuring** and validating, increase your resilience.

Perform **scenario-based secure IT & OT cyber attack simulations** to strengthen your defense systems.

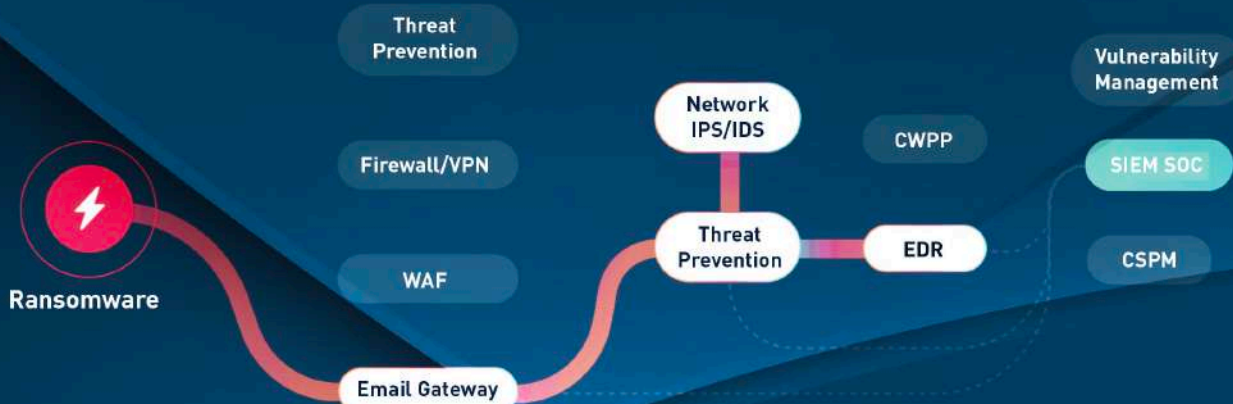

## IT & OT RED TEAM CYBER SECURITY PLATFORM "SAFE BREACH"

Gain visibility across the entire cyber kill chain.

Ransomware      Credential Abuse      Cloud Attacks      Data Exfiltration      Security Posture

# USE BAS POWER

## SafeBreach

## SafeBreach Security Validation Workflow

### Reduce

- Attack Surface
- Risk Posture
- Security Gaps

### Prioritize Results

- Relate to General Risk
- Visualize Path of Attack
- Filter and Target Critical Issues for Actionable Results

### Simulating Attacks

- Cloud, Network, Endpoint, Email Spoofing
- Lateral Movement, User Level
- Any US-CERT with 24-Hour SLA, Any Emerging Threat

### Security Control Verification

SC1	Organization-wide Security Posture
SC2	Posture Assessment per OU/BU
SC3	Environmental Drift Detection
SC4	ITRE ATT&CK Assessment
SC5	Endpoint Techniques Assessment
SC6	Email Security Assessment
SC7	Environmental Verification
SC8	Data Leak Assessment
SC9	Segmentation Control Verification
SC10	Comparison of Security Controls
SC11	SOC/IR Verification
SC12	M&A Risk Assessment

### Threat Assessment

TA1	Imminent Threat Assessment
TA2	MITRE Threat Actor Assessment
TA3	TI Integrated Assessment

### Cloud Security Assessment

CS1	Cloud Threat Assessment
CS2	CWPP Control Verification
CS3	Configuration Control Verification

### Risk Based VM

VM1	Security Gap Prioritization
VM2	Threat Based Security Gap Prioritization
