Defence

Our unique products make sure valuable information does not fall into the wrong hands and are used for communication classified up to TOP SECRET.

Authority

Advenica's solutions keep sensitive information safe and infrastructure up and running, while catering to the public sector's need for network availability and convergence.

Infrastructure

Our solutions makes sure infrastructure systems are protected in the best way possible to keep running at all times.

Industry

We help industry companies make the most of digitalisation without jeopardising production environments critical to everyday and future business.

Our products ensure that you can protect your digital information

Data diodes

Prevent intrusion, maintain network integrity and secure a unidirectional information exchange between networks with Data Diodes.

Data Guards

Secure your two-way information exchange with ZoneGuard.

Remote Access

Reach any equipment when needed with Remote Access Device, even out-of-band.

Secure file import

Trust that imported files are free from malware. Secure file import solutions for network-based file import and portable media.

Encryption systems

Quantum-secure IP encryption system SecuriVPN is the solution for tactical and strategic defence operations.
