

Outpost24 PCI

One platform. Complete visibility. Trusted expertise.

Outpost24 provides an easy and cost-effective solution to meet your PCI DSS compliance requirements.

With over 20 years as a PCI [Approved Scanning Vendor \(ASV\)](#) and a team of certified PCI professionals, we help organizations of all sizes achieve and maintain compliance with confidence.

Our flexible PCI packages include PCI ASV scanning, internal vulnerability assessments, and application and infrastructure penetration testing — all managed within a single platform to streamline testing and reporting across the key PCI DSS compliance requirements.

PCI Packages	Essential	Advanced	Premium
PCI ASV Scanning Required at least once a quarter	✓	✓	✓
Internal Vulnerability Scanning Required at least once a quarter	-	-	✓
Application Pen Testing Required at least once a year	-	✓	✓
Infrastructure Pen Testing Required at least once a year	-	✓	✓
PCI DSS Requirements Covered View the full Standards	11.3.2	11.3.2 11.4.2 11.4.3	11.3.1 11.3.2 11.4.2 11.4.3

All PCI packages can also be delivered as Managed Services. The Managed Services Team brings deep PCI expertise to handle scanning, testing, and compliance, helping you set up quickly, resolve issues efficiently, and stay audit-ready without the day-to-day effort.

Manage your PCI testing and reporting in one place

Outpost24 makes PCI compliance management simple. From visibility and testing to reporting, everything is handled in one easy-to-use platform. Whether you choose quarterly scanning or continuous monitoring, our solution adapts to your needs and helps you stay secure, efficient, and audit-ready — without the complexity.

Streamlined Compliance

Plan, schedule, and manage your PCI testing in one platform. With flexible scan scheduling and actionable insights, you can efficiently track results, prioritize remediation, and reduce manual effort across your compliance program.

Expert Support

All PCI packages are available as Managed Services. Our Managed Services Team handle scanning, reporting, and dispute management, helping you reduce internal workload and stay audit-ready year-round.

Flexible Packages

Tailor your PCI package to include the scans and tests necessary to meet PCI DSS requirements and pay only for what you need — driving value for money and operational efficiency.

Enhanced Reporting

Generate clear, audit-ready reports and access detailed insights from a single platform, keeping documentation organized for faster audit preparation.
